IMMEDIATE ATTN - COMRADE ASSOCIATE BELCHÉRE:

"Why did the chicken cross the road. She was taking bets at three to one the dumbass with the I BRAKE FOR ANIMALS bumper sticker would wind up in a ditch. TRUTH."

... this tweet(er)† massage garnered plaudits as I unleashed it yesterday evening among various acquaintances...

OMG I AM ON FIRE (somebody grab an extinguisher quick - preferably a gin and tonic?), and

"Where's my commendation? Don't I get at least a Brass Star for this?"

[grumbles]

Sincerely,
COMRADE COMMANDER MAXZIMA BLAYK

† Oops, it's 160 characters? SIGH

PS: Really, I'm entirely sincere when I say I've never known anybody as funny as 'Q' is! NK, good god, these are HOWLERS (IFF you can "read" them?) and I am turned ON to insane levels, well, excepting the various poisonings and menacing and whatnot, which are kind of a "drag" - like some guys in your Friendly Local Militia staging "maneuvers" out in the deep deep woods, all geared up in camo and shit as a kind of "fashion accessory" to their BRIGHT ORANGE VESTS, but they can't shoot worth a damn!

"Don't worry, we'll pick something up for dinner on our way home!" - LOL

... which reminds me, with respect to "I BRAKE FOR ANIMALS"? ... THINK "Love me, I'm a liberal!" and "Gosh, it's been DAYS since I had me some fresh roadkill... I feel like I have a case of 'bad brakes' coming on!"

LOLOL - your correspondent here is gleefully awaiting (with mixed feelings of dread and AWE!!!) Q's "revenge" -, which explains somewhat why I'm halfway-glad I'm getting her REALLY ticked off at me?

O YE OF LITTLE FAITH etc etc etc

PPS: [Don Pharaoh](#) - yeah, this gal is one of my best friends: she's a peach! - even though she originally hails from Missouri? LOL

Ergo, she has to marry me... uh, I guess?

I'm worn out over here: too many assholes to count (and not mine! SHOCKA!)

NB: She went on (or was placed on?) Celexa and maybe also an antipsychotic... I don't think she gives a shit anymore: SSRIs have the "wonderful" property of turning people... subhuman?

(shrugs) ... I have the impression she forgot a lot of things from our past conversations.

Yeah, the memory loss is no doubt from the Celexa : I knew there was a problem when she didn't appear to recall my joke (from our third date, no less?) that went:

"I can't decide whether you're Beautiful Zelda, or a Russian spy!"

-> I mentioned the Russian Spy joke again later on, and she said

"A Russian Spy, I'll have to remember that!"

tsk tsk: the very first time she was over (our second date: I hadn't yet realized that the first one was a setup?), I was relating how excited I was - "It's just like the Robert Sheckley story!" in which a guy gets so depressed over having no spies (in a culture where everyone spies on each other?), he decides to buy a spaceship and emigrate, and before you know it

... he has a beautiful girlfriend, and then attracts a whole retinue of spies!

Surely, he's up to something!

LOL/0 : I bet she doesn't remember that. TSK. TSK. I was just showing her the place for the first time (not like she hadn't seen it before: she had in 1994! (eyeroll) and we were heading up the stairs to STUDIO WAN, first thing I showed her...

I knew things were all weird with this relationship or whatever... I didn't care much: "love is like that."

... the weird thing here is that she was nervous starting out: she really didn't

believe I would go for her... and she's been obsessing over me (forever/since 1990).

... but she's such a genius with the texts, how can I not love her?

Really, this is all brilliant (so good... you can't see the magician at work!)

... I just hope she gets back to being The Best again. Dealing with all these assholes has been a bad influence on her (sniffles)... I really agreed with her about getting out of this town, but other folks (and now herself!) have made it impossible...

I'm astonished at the number of pissants I've uncovered ... it's almost unbearable.
