PREAMBLE to Postscripts: PLEASE NOTE that the thread on this post has been polluted by the presence of a likely sockpuppet, one "Barbara Hudson," purportedly a disabled black female of some years of age who "knows" the value of terminal applications for the Macintosh, and that I was institutionalized in the American Gulag for 4 1/2 YEARS six years after the date of a criminal offense - because I purportedly had a "bad motive" for committing the arson, an offense of which I was ACQUITTED in the year 1997 as "Not Responsible" precisely BECAUSE I had NO malicious motives in committing the act!

SEE "COIN-OP - (a decent place to start)" below by using your Search function to find "COIN-OP"; if you're interested in a bit more detailed description of why the Black Hats work to bring social pressure on me in "seemingly indirect" ways: I got them pissed-off back in 1994 by making sure a system for the State of Michigan had trustworthy encryption, and boy were they disappointed that I prevented them from undermining the data security of all the computerized databases for which we at Millennium Computer Company were building the Mac and PC access applications!

Also, Billy Beck of Dryden, New York incriminates himself in the offense of Internet Harassment brought against AnneRose Blayk in what is clearly an attempt to DEMOTIVATE others from providing assistance to me by characterizing me as a "loon," a LOUT, an IDLER, a worthless person - Lord only knows why he believes he can get away with it?

Maybe he believed that his posts would "magically disappear" when he "Defriended" me on Facebook: SURPRISE!

contribution to AnneRose Blayk for the gracious assistance that I have provided to the "musical community at large" in Ithaca in the form of A/V recordings uploaded to BADTRIPRECORDS.BIZ and functioning as a fount of wit, wisdom, and wisecracks, please print out the PAYMENT STUB on Page 3 and mail in a payment for "some amount less than or equal to \$1,206.80" to:

SOCIAL SECURITY ADMINISTRATION
PO BOX 3430
PHILADELPHIA, PA. 19122-9985

---> The SSA should then be refunding the money to me, as an "Overpayment," as part of their normal procedures?

Because the truth is, the time I spent making those videos never amounted to Substantial Gainful Activity, no matter that I was doing a GREAT job and headed for making "some" money at it?

It's this stinkin' WAR, brought against me HARD since September 5, 2014 by the Remnant of the National Socialist Party of Adolf Hitler, their adherents in COINS - the "Cult of IBM National Socialists" - and their "dupes and useful idiots" local to Ithaca, that has forced me to work like a dog!

Hey, if you don't find it plausible that the inheritors of the folks who engaged in the genocidal scheming described in fulsome detail in the book "IBM and the Holocaust" are going to target me? As a "blatantly out-there pot-smokin' Jew-whore faggot 'Metal Chick' and hippie freak," and developer and distributor of an IBM 3270 terminal emulator, "dataComet," to the likes of NASA Headquarters and Lockheed-Martin?

I pity you: you have shit for brains.

NOTE WELL: the income statements I provided to the Social Security Administration have been 100% accurate (insofar as any "accounting" can be accurate? "Everybody makes mistakes!"), and I haven't made SQUAT on doing videos for bands, and moreover have never made ONE SINGLE DIME off of the pornography that I am featured in, NOT ONE, and although I have never seen it, I believe the CGI porn was developed and distributed with an aim to DESTROYING MY REPUTATION!

Bonze AnneRose Blayk -
 Here's the definition of "Substantial Gainful Activity" provided by the Social Security Administration as provided on their website and logged on my OWN computer for trying to figure out WHAT THE FUCK!

You see, you don't have to make one. thin. dime. to be DISQUALIFIED from receiving means-tested SSI "Supplemental Security Income," NOT ONE, no matter what your disability is?

... and wow, the "disability" the OTDA - "Office of Temporary and Disability Assessment" - tagged me with, SCHIZOPHRENIA, is about the dumbest diagnosis to ever be thrown at a person like a stinking rotten egg!

Why?

Because it takes about FIVE MINUTES to determine that I, [Bonze AnneRose Blayk](#), do NOT suffer from schizophrenia, "Paranoid or Otherwise!"

And the diagnosis with which I was initially tagged, by Amari Meader of Ithaca's Family and Children's Service, "Borderline Personality Disorder"?

Wow. That's almost even dumber! Gina Smithson, singer with [The Purple Valley](#) and a therapist at Cornell's health facility, assessed me for the condition with one single question:

Gina - "Do you think you've got Borderline Personality Disorder?"
AnneRose - "No."

Gina - "Well, then you don't, because people who suffer from the disorder are almost always happy to know why they are having the kind of problems they are facing." [paraphrase]

And of course, I'm hanging tough with Lenora Quvus, not because I'm a pathetic subbie wanna-be brainless wench, but because "whatever!," and I happen to love her deeply and think she's an awesome person - whether she actually qualifies as a "human being" or not, and in fact,

ESPECIALLY because she doesn't!

--- BIRDBRAINS ROCK --- ❤️ - (me too)

and that's Proof Positive that I am NOT "borderline," because the chief characteristic of the Borderline Personality is an error in thinking they call "splitting," where you perceive a person as either "all good, or all evil,"

And Lenora sure as shit has given me plenty of opportunity to assume "all EVIL!," but I don't.

If you don't acknowledge that you've got "some evil in you," wow, you need to take a close look in the mirror!

Me, I've got more than most, but not only is it under pretty good control? I'm upfront about: it's right up front in my sense of humor! 😊

thanks,
- [bonze blayk](#)

ADDENDUM: the text from the SSA document:

618. Factors tending to show ability to perform substantial gainful activity.

THE PERFORMANCE OF WORK DURING A PERIOD OF ALLEGED DISABILITY may be indicative of ability to engage in substantial gainful activity in the following ways:

A. Work that does not constitute substantial gainful activity in itself may indicate that the individual is capable of increased effort, of greater use of work skills or abilities.

B. The performance of duties involving skills, experience or constituting a substantial contribution to an enterprise may indicate ability to engage in substantial gainful activity.

C. The satisfactory performance of work or an assignment may demonstrate ability to engage in substantial gainful activity. Unsatisfactory performance or the need for close supervision or assistance could constitute evidence of inability to do so.

NOTE: Where the individual has not demonstrated by working that he or she is able to engage in substantial gainful activity, all the medical and vocational evidence in the individual's file is considered in determining whether the individual has the ability to engage in substantial gainful activity, or, in the case of a child under age 18 filing for SSI childhood disability benefits, the ability to independently, appropriately, and effectively engage in age-appropriate activities.

620. Significance of earnings.

THE AMOUNT OF EARNINGS FROM WORK ACTIVITY DURING A PERIOD OF ALLEGED DISABILITY may establish ability to engage in substantial gainful activity. Substantial earnings will generally do so. However, low or no earnings during a period of work activity do not establish inability to engage in substantial gainful activity. The circumstances under which work is performed must be considered.

Barbara Hudson First, I'm just writing this so that maybe you can start preparing the shift to a more conventional life, but you certainly have the right to tell me to f*ck off.

You seem to be operating under a misunderstanding. It's not whether you are actually earning an income but whether you are still classified as unable to earn an income.

From the photos, you deny the diagnoses of the psychiatrists, so you really can't claim a mental disorder that prevents you from working, so all that leaves is physical handicaps, which I see no mention of.

So whether you are working or not, to them you no longer meet the rules for collecting SSI. That leaves working, or unemployment, or welfare.

I see you mentioned making a terminal emulator. Unfortunately, from the context and your web site it's obvious that your skills in the field are outdated, as is your experience, so tech is out. You'll have to lower your sights to the McJobs that people without current qualifications have to take.

That's a truth that more and more people are finding as they are seen as "too old" for certain jobs - in tech, 40 is the new 65, and at 60 it's doubtful that anyone is going to hire you for anything important. Plus, the more important the job, the more likely that they'll search you and find your rant, which should be enough to scare off any employer.

Good luck.

May 8 at 11:11pm

Bonze AnneRose Blayk Barbara Hudson?

Sorry, but you don't have the faintest clue what's going on here:

I had to fight to get OFF SSI!

Sincerely,
- barmayden

PS: FUCK "conventional life," I certainly never had one, and would never, ever want one as long as it means contributing to what Lewis Mumford called

Bonze AnneRose Blayk OH YEAH, for those late to the program?

I FUCKING HATE COMPUTER PROGRAMMING - and basically have since around 1996: shipping life-safety critical code is hard on the nerves! - outside of the fun of "meeting creative challenges and interacting with interesting people," and would not accept a job in IT for a million dollars: the crapfest just gets more and more depressing with each passing year; once I've got my electricity back on, I could (in theory) go back and update dataComet so it ran under YOSEMITE!, the latest gruesome descent of the once-awesome Macintosh software ecology into a cesspit of

"New! Improved! Shiny colors all different all over again!"

The bug that's nailing dataComet is probably a trivial issue with some mod made to memory management - but by God, I cannot bring myself to look at whatever horrible "enhancements" they have brought to Xcode? (Metrowerks was better, and "don't get me started!"

By the way, I didn't do that web page, it was redesigned by a friend of mine after I was RAILROADED into the American Gulag back in 2003?

I loathe CSS, can tolerate HTML, and DESPISE what has been done to the Macintosh since the passing of Steve Jobs.

Oh yeah, I AM married to Lenora Quvus, "legal niceties notwithstanding, some things were ordained by God and sealed by the persons involved - with a kiss."

Bonze AnneRose Blayk Here's a link to the post I made of the letter I offered to the SSA, which did NOT result in a retraction of the absolutely INSANE misdiagnosis of "Schizophrenia" from the New York OTDA - Office of Disability and Temporary Assistance.

ZERO rational and honest clinicians believe I suffer from Schizophrenia - ZERO.

PS: My therapist is a Clinical Psychologist with long experience working in mental hospitals with the severely mentally ill. He thinks I suffer from Temporal Lobe Epilepsy too?

Get it? I sought out competent help, and feel very fortunate to have an ongoing relationship with a PROFESSIONAL clinician.

Bonze AnneRose Blayk
March 24 · Ithaca, NY ·

"barmayden AnneRose Blayk to SSI:

Hey Boss! - I QUIT."

I've left the THOROUGHLY USELESS SSI "Supplemental Security Income" program as of March 22, 2016;

1) My brother **Michael Earl Saunders** is holding some \$40,000-odd bucks for me, and even though he hasn't sent it, ON REVIEW it will be regarded as CASH and included against my tiny \$2,000 limit as a "Countable Asset" - I've been through this before with my CREF Retirement Fund, and I'm pretty sure that's how they will regard it IF they review it, AND I am strictly obligated to inform them of the funds etc etc etc under pains of severe punishment for fraud etc etc etc.

2) I AM NOT SCHIZOPHRENIC and I am sick and tired of having the nature of my mental and physical illnesses INTENTIONALLY MIS-CHARACTERIZED by... ah, clinicians who maybe shouldn't be in the business of medicine.

Here is the text of the document:

March 22, 2016

1668 Trumansburg Rd.
Ithaca, NY 14850

Social Security
2nd Floor
127 East State Street
Ithaca, NY 14850

First, I would like to note that I am now "constructively in possession of excess assets" totalling some \$40,000 held in the accounts of my brother - [Michael Earl Saunders](#), 377 Smalley Ave, Hayward, CA 94541 - as Trustee, following the demise of my mother Jean Cox Saunders on March 29, 2014.

In addition, on extensive review of the medical records I now have in my possession, I believe that while I suffer from several significant neurological and psychiatric conditions, I no longer meet the standards promulgated in the regulations of the SSA for a Qualifying Disability; thus, I am informing you of my analysis, as required under the regulations of the Social Security Administration.

1. The diagnosis under which the OTDA qualified me - SCHIZOPHRENIA - is clearly incorrect: I do not suffer from a formal thought disorder.
2. Research I have undertaken over the past years on my records indicates that the psychotic episodes I suffered in January/February 1997, late April 2002, and April 2003 were all induced by the effects of hallucinogenic drugs ingested without my prior awareness:
3. In 1997, Prozac and Trazodone, taken as prescribed, left me incapacitated by Trazodone's hallucinogenic byproduct, mCPP;
4. Both in 2002 and in 2003, I consumed marijuana which had been contaminated with the extremely dangerous dissociative drug PCP (phencyclidine); PLEASE NOTE: this is a drug I would NEVER voluntarily ingest!
5. Thus, the diagnosis pertinent to each of those episodes is clearly one describing a "Psychosis - Hallucinogenic - Involuntary".

See my web pages at <http://badtriprecords.biz/bonzeblayk/> for summaries of my assessments of my prior psychiatric symptoms and my analysis of some of the failings in diagnosis and treatment exhibited by the clinicians of New York State's Office of Mental Health; particularly galling is the OUTRAGEOUS claim that I have exhibited "a long history of extreme violence against women," which constitutes malicious LIBEL on the part of those who have supported and promulgated this claim in my records, a claim entirely unsupported by any meaningful record of criminal charges. Particularly, regarding the sole verified criminal act of violence in my history, the offense of arson on Feb. 5, 1997? — Please note: "A trailer is not a woman," and to believe such is the case? THAT SOUNDS TO ME LIKE THE PRODUCT OF A FORMAL THOUGHT DISORDER.

I believe that I suffer from the following maladies:

- SEVERE DSM-5 Gender Dysphoria (diagnosed ~13 times over the course of 14 years as DSM-IV "Gender Identity Disorder");
- TLE - "Temporal Lobe Epilepsy"/Complex Partial Seizures: Bilateralized, exhibited typically in outbursts of verbal hostility, with no evidence of absence seizures or profound seizure activity aside from two severe episodes observed during the psychoses noted above. I prominently display intransigent personality traits characterized by many prominent neurologists as Geschwind Syndrome; these have been present since early childhood: extreme circumstantiality in speech and hypergraphia in my writing, interpersonal "viscosity" or "stickiness" exhibited in prolonging interpersonal interactions beyond normal expectations, philosophical/religious preoccupations and altered sexuality, including hypersexuality, which has evidently been aggravated by my having been subjected to a severe overdose of PCP in April 2003 (leading to damage to the posterior cingulate cortex);
- Personality Disorder NOS with features of Histrionic Personality Disorder and Obsessive-Compulsive Personality Disorder;

• Post-Traumatic Stress Disorder, due primarily to unduly prolonged institutionalization - from April 2003 through December 2007 - among patients who intermittently and unpredictably engaged in destructive behaviors and extreme violence towards others.

Although these conditions may leave me incapable of finding normal employment, I doubt that they comprise a "disabling disorder" under the standards employed by the OTDA, especially considering that my applications for disability prior to my Appeal in 2009 were rejected.

Thanks sincerely,

Bonze Anne Rose Blayk - SS# 431-88-9647

NB: Michael Earl Saunders, there is ABSOLUTELY NO POINT in struggling with a system that is "set up" in such a dramatically irrational fashion that it is "as if designed" to fuck everybody over?

NO, I take that back: Republican politicians and bureaucrats who HATE the whole idea of paying disability FUCKED UP THE SYSTEM by causing it to be structured in a manner that is

TOTALLY FUCKNG CRAZY!!!!

---> "Saboteurs"

FOR EXAMPLE: I'm supposed to suffer from SCHIZOPHRENIA?

That is INSANE.

Barbara Hudson You can always just send the checks back if you don't want to collect SSI. Alternately, if they're going by direct deposit, change bank accounts. Either way, problem solved. What's the big deal, unless you've been involuntarily committed?

Also re: your setting a trailer on fire - they were looking at the motivations for the act, not the at itself.

Are you schizoid? You sound more like someone who is angry at themselves, and is blaming the rest of the world. Narcissistic Personality Disorder, since you attempt to explain away everything as someone else's fault or events beyond your control (the use of contaminated drugs is one example - the initial decision to take them, even not knowing they were contaminated, was yours, so you bear some responsibility for the consequences).

You've been looking for excuses for 40 years. At 60, you need to own up to your part in this entire fiasco.

COIN-OP - (a decent place to start)

For those following this post? Please Note: we have a "local" here, Billy Beck, attending to his self-appointed role as

"Billy Beck - Friend to Thugs!"

SEE my post at "Monday at 7:46PM" -

- Beck: "You're a bloody *loon*, Bonze
-- I wish you weren't."

AnneRose: You're way out of your depth, Beck.

---> Check out the "interaction" following that comment which is buried in the "Replies," in which Billy Beck resorts to VERBAL INTIMIDATION to reinforce the physical threats and menacing that have been unleashed upon me by a TINY MINORITY in the City of Ithaca, focused upon Just. One. Bar... "The Dock," the ONLY place in my entire life I have EVER been subjected to violent intimidation!

WTF. Here we go with a dissection of Billy Beck's language - "You're a BLOODY *loon*, Bonze"

"Loon" here is not intended to mean simply "loony," or "crazy," as one might expect - Beck is using it in a very special sense -

loon - "a worthless person"

Like · Reply · May 23 at 5:38am · Edited

Bonze AnneRose Blayk -

"loon" - someone despicable, a poltroon, a piece of garbage -

Beck is marking me out for his Ultra-Right-Wing Buddies for harassment, and worse.

Beck's version of "dialog" consists of

SHUT THE FUCK UP
SHUT UP
I AM BETTER THAN YOU
SHUT UP
YOU DON'T LISTEN
SHUT UP

What Billy Beck and his buddies fail to understand is that on the Far Left, there are whole lots of people who really really dislike me because THEY get the point:

I am and have been a Member in good standing of the Military-Industrial-Academic Complex, why?

Because I delivered a highly-functional computer application, dataComet, that met their requirements at a sweet price point!

Lockheed-Martin, Hughes Aircraft, SAIC, NASA Headquarters, and God knows who else hidden beneath the cover of either third-party acquisitions or just plain stolen licenses has wound up using dataComet and dataComet-Secure - primarily for accounting purposes in accessing IBM enterprise systems, "miniframes" that are ideally suited to smaller divisions of major corporations - the "Silverlake" AS/400 / iSeries line of computers from IBM, a GREAT corporation in the American tradition of excellence... unfortunately, every firm has its bad-uns, right?

Back in 1994, I offended some of them by insisting that the the software I was helping implement for the State of Michigan MUST have a correctly functioning DES encryption package. PERIOD. No compromise. PERIOD.

So here's Billy Beck, 22 years down the line, trying to throw the Fear of Beck into me? HAH.

LOON - 1. A worthless person; a lout; a rascal o scamp; an idler; a boor or clown; a fool or dolt. "Hold off! Unhand me, graybeard loon!" - Coleridge
2. Hence: a) A man of low station; a fellow; a menial.

yeah right, Beck. UP YOURS.

#define LOON (supercoder^3)

As THE person who has managed every aspect of the development of COMET since 1986, I naturally take umbrage at the cowardly pusbag Billy Beck's vile characterization of me as a "worthless person," and pray that he winds up in prison where he belongs - along with his Bully Boy Buddies.

Rick Kline - Here's a photo of the cover page of the book that I mentioned to you the other evening at Home Depot, "IBM and the Holocaust"

I haven't read the whole thing yet, but the point is pretty clear - as I noted to you, and mention again just above in this thread, there are some Really Bad People who worked at IBM, and they're still there, infesting a truly great corporation - one that doesn't need racist pigs bringing down its reputation!

Bonze AnneRose Blayk Rick Kline

These are the kind of people who just don't appreciate a sense of humor - uh, like,

"Crime doesn't pay. Neither does farming. Then again, you could wind up managing a server farm at Cornell, and guess what?

"Farming doesn't pay! Didn't I say that already!

[whack!] "Ny-uck Ny-uck Ny-uck Ny-uck!"

LOL, these guys are cretins: it's no wonder they're getting creamed in the terminal stages of what they hoped would be a stealthy victory in the Long War they envisioned as the capstone of World War III!

Oh, the Remnant of the National Socialist Party! Hidden deep within the shadows of our society, pulling strings left and right, and then at the end?

They're left with cretins like Billy Beck and Thug Boy "Chet" at The Dock, pulling their punches because "we don't really do VIOLENCE like MARINES... we carefully calculate the boundaries of legal behavior so we can skirt the law and get away with it!"

---> "They planned for every contingency, except for the lack of a contingent." - bonze blayk

Ha. They won't be getting away with it. It's different this time: they chose the Wrong. Person. to. Fuckwit!

NB: You'd never guess that the FBI started vetting me back in 1992 when I got into that "salary tiff," and surprise!

My Troop Leader in Boy Scouts was this fellow Phil, a salesman for IBM, a great great guy, and our Assistant Scoutmaster Murray?

He was a Marine. "Props!"

And you'd never guess that my entire family had a background in Communications and Military Intelligence, but it kind of makes sense when you look waaay back an take note of the fact that my Great-great-grandfather S.W. Dicks graduated from West Point in 1843 and had the signal honor of fighting in a noble cause for the State of Virginia under the command of...

Stonewall Jackson? "What?"

Yeah, he was on the losing team, but WTF: Realistic Southerners don't whine too much about it: it was a lousy war for the wrong cause, most of them are, it doesn't stop Southern types from "signing up" for the military anyway, ah, because "culture" and like that, and Arkansans are [even worse].

---> When an Air Force recruiter called me up back in 1977 to urge me to sign up for Officer Candidate School following my graduation with High Honors from the University of Texas at Austin, I graciously declined the honor because with 20/250 vision, I knew there was ZERO chance I could become a pilot and a line officer - "We need good people on staff too!" - "Oh, thanks, but I'm not really interested in that."

LOL

So is it really all that surprising that I had given my boss Dick Cogger a copy of

James Fallows excellent "National Defense" just because it had wonderful accounts of design strategies and failure modes in Systems Design? Or that I wound up giving my boss's boss's boss, holder of a Doctorate in Mathematics M. Stuart Lynn, Vice-President for Information Technologies at Cornell, a copy of Sun Tzu's "Art of War," just because it's a great book on management in general?

BACK TO REGULAR WAR, THE SHITTY KIND

... sometimes the Enemy is a Piece of Shit that totally deserves to be put underground, like say National Socialist scum!

YEAH THAT'LL DO

Oh, by the way?

I'm also two degrees by relation to the guy who was the architect of the IBM "Silverlake" series of computers, quite by accident, as his brother Mike Furey was married to my wife Anne Marie Whelan's sister Peggy Furey.

Weird, huh? The guy was also the architect of IBM's SNA "Systems Network Architecture" networking system - which pretty much everybody in the IBM systems programming world hated, except people who didn't. 😊

Here's the text of that blurb on the back cover of "IBM and the Holocaust" - I hope some of you local folks are paying attention, so you can understand the 2nd- and 3rd-order influences behind the motivations of local shitheads who have "Delusions of Superiority" like Billy Beck and the assholes at The Dock and elsewhere who think it's Just Fine to beat up on me IN PUBLIC.

Dolts.

IBM AND THE HOLOCAUST

"Edwin Black has given Holocaust history an extraordinary new dimension. Clearly, the destruction of six million Jewish lives, and countless non-Jews, could not have been possible without IBM's Hollerith machines. Nor could the Third Reich have perfected the roundup of Jews throughout Europe, their deportation to concentration camps, and the statistics that measured their final agonies in the Final Solution without custom-designed IBM equipment. These revelations are troubling enough, but Black has crafted a monumental history that goes beyond such horrific revelations. He has discovered the enormous corruptive power of an international enterprise that saw itself above the laws of man and God." - Abraham Peck, director of research, American Jewish Historical Society

--- and the next blurb reads ---

"IBM and the Holocaust is a tremendous, timely work. Neglected for more than 50 years, the sordid records disclosing the global conglomerate IBM's collaboration with the Nazi regime, in pursuit of market monopoly, have now been exhumed by Edwin Black. His comprehensive and detailed account shows how the blessings of punch card technology can become a curse to human rights, as it did in enabling the Holocaust." - Robert Wolfe, former chief National Archives expert for captured German records and Nuremberg documentation

--- and the last blurb reads ---

"In this carefully researched, yet chilling book, Edwin Black relates step-by-step how the corporate and technological zeal of IBM, and its CEO, Thomas J. Watson Sr., contributed to Nazi power and advanced the Holocaust. This book is an awesome warning for the future." - William Seltzer, author of "Population Statistics and the Holocaust," and former director, UN Office of Statistics

DEAR NATIONAL SOCIALIST SCUM:

You may think I'm leaning a bit Yid, on account of my nose?

I'm not a Yid: the nose is courtesy of a heritage Basque.

You fuck with me?

What I'm thinking?

Lenora deems Ayn Rand's bold experiment in Literary Theory, "Romantic Realism," a failure, as do most people who have read "Atlas Shrugged" and found it wanting as "a really great novel with AN ENCHANTING LITERARY STYLE" because, let's face it, Ayn is NOT the most elegant writer in the English language - she's from Russia after all! - and all of the descriptions of

"Hank Rearden's chiseled features glowed in the sunset as the train to the oil fields of Colorado roared across the bridge of Rearden Metal, which sustained the load of the racing train as if it were a feather borne on the winds of..."

Oops, I can't do it! Anyway, what I am thinking is:

Lenora has the opportunity to re-shape AnneRose in the physical mold she prefers, insofar as it is attainable with present or future technology... and like a lot of guys, she likes change!

---> Romantic Realism infuses my longing to bring true satisfaction to Lenora's goals, which are more ambitious than you would imagine... and I'm on board, 100%!
