Subjective

- Subjective

Service Type: 99231 Hosp care 15 min low complexity

Subjective:

The patient approaches me in the hall where she is extremely hypervocal and delusional, talking, among other subjects, about the criminal hacking group that she alleges to have been persecuting her. "The organization I'm talking about is not a ring. I mean they're just a loose affiliation of people in the international community who have taken an interest in my affairs and taken steps to control my situation. It's because I'm a computer programmer and have connections with Verizon and the Federal government, but the governmental authorities are really quite nebulous and its not something that's secure in describing to you."
