### Subjective

#### - Subjective

**Service Type:** 99231 Hosp care 15 min low complexity

#### **Subjective:**

The patient goes to extraordinary detail today in discussing her delusions of persecution related to an international computer hacking ring. "You see, they don't come to your house themselves to harass you, they hire a drug junkie to do that. It created an unsafe situation and I knew that they had entered my home because you could see how the cement around the basement windows had been removed and then put back to make it look like no one had been there. I want you to know that I was never kicked out of any hotels after I left there, it's just that my card-entry swipe had been hacked and they were getting all my information that way. That's how I ended up at the shelter!" The patient remains delusional and clearly incapable of managing his own safety if discharged to home.
