### Subjective

#### - Subjective

**Service Type:** 99231 Hosp care 15 min low complexity

#### **Subjective:**

Called to see patient following an event earlier in the shift before my arrival in which he was reportedly agitated and disruptive on the milieu, upsetting peers and interfering with therapeutic programming. Multiple efforts were made, unsuccessfully, to calm him and ultimately he was given a 100mg IM dose of chlorpromazine. At this time he is still irritable and uncooperative, arguing with me that it is the doctor's legal obligation to administer the shot and that he's caught me once again breaking State regulations. He does not appear to have had any untoward effects from the medication.
