- Subjective

Date of Service: 10/03/18

Service Type: 99231 Hosp care 15 min low complexity

Subjective:

Anne Rose is incredibly hostile today, flicking me off with her middle finger and accusing me of being a sadist and subjecting her to "psychiatric abuse." She glares at me and won't answer further questions. I asked Anne Rose if anyone in her life had ever treated her in this manner, but she is unwilling to explore the dynamic further, saying "You're going to burn in court. What prison do you want to go to? State? Federal? Your choice, not mine." She remains bedridden, naked under her sheets. She is not participatory in any form of treatment, including meds, groups, PT/OT or pain management, although she will take meals in her room.

Merits Inpatient Hospitalization: For Immediate Safety, For Stabilization

Inpatient DSM-V Dx: F29

Clinical Impression:

62 y.o. single, white, male to female transgendered patient with a history of chronic psychotic and personality disorders, who is transferred from the Hospitalist service following an altercation with law enforcement at a local Denny's restaurant in which she was struck in the face, resulting in nasal fracture, elevated WBCs and elevated CPK. The patient was agitated and combative in the ER, requiring stat administration of IM lorazepam, ziprasidone and ketamine, as well as mechanical restraint for patient's and others' safety. She since required involuntary surgery to reduce a separated left shoulder, after refusing this. On exam she is delusional, angry and hostile.
