

Progress Note

Patient: BLAYK, BONZE ANNE ROSE
DOB/Age: 05/01/1956 62
Admission Date: 09/24/18

Account Number: A00088571823
Medical Record#: M000597460

Provider: Clifford Ehmke MD

Subjective

- Subjective

Date of Service: 09/25/18

Service Type: 99231 Hosp care 15 min low complexity

Subjective:

Anne Rose is hostile and shooing me out of her room almost immediately. She is very clear that she views this hospitalization as illegitimate and refuses to accept antipsychotic therapy. She is also refusing blood pressure medicine, despite systolic BP readings over 150. "You did not bring me in here under the proper procedures. I don't have to do anything you tell me to."

Objective

- Appearance

Appearance: Well Developed/Nourished

Dysmorphic Features: No

Hygiene: Normal

Grooming: Disheveled

- Behavior

Psychomotor Activities: Normal

Exhibits Abnormal Movement: No

- Attitude and Relatedness

Attitude and Relatedness: Hostile

Eye Contact: Fair

- Speech

Quality: Unpressured

Latencies: Normal

Quantity: Appropriate

- Mood

Patient's Decription of Mood: "Angry"

This report is only to be considered final once signed by the Provider(s) as displayed in the "<Electronically Signed by >" field (s). Absence of a signature indicates the report is in a draft status and still needs to be finalized. In the event this document was created by someone other than the signing Provider, the individual initiating the document will be listed in the "Entered by:" or "Dictated by:" fields.

Type of Hallucinations: Visual: No, Auditory: No, Command: No

- Level of Consciousness

Level of Consciousness: Alert

Orientation: Yes Intact, Yes Orientated to Time, Yes Orientated to Place, Yes Orientated to Person

- Impulse Control

Impulse Control: Poor

- Insight and Judgement

Insight and Judgement: Impaired

- Group Participation

Participating in Group Activities: No

- Medication Management

Medication Management Adherence: No

Assessment

- Assessment

Merits Inpatient Hospitalization: For Immediate Safety, For Stabilization

Inpatient DSM-V Dx: F29

Clinical Impression:

62 y.o. single, white, male to female transgendered patient with a history of chronic psychotic and personality disorders, who is transferred from the Hospitalist service following an altercation with law enforcement at a local Denny's restaurant in which she was struck in the face, resulting in nasal fracture, elevated WBCs and elevated CPK. The patient was agitated and combative in the ER, requiring stat administration of IM lorazepam, ziprasidone and ketamine, as well as mechanical restraint for patient's and others' safety. She since required involuntary surgery to reduce a separated left shoulder, after refusing this. On exam she is delusional, angry and hostile.

Plan

- Plan

This report is only to be considered final once signed by the Provider(s) as displayed in the "<Electronically Signed by >" field (s). Absence of a signature indicates the report is in a draft status and still needs to be finalized. In the event this document was created by someone other than the signing Provider, the individual initiating the document will be listed in the "Entered by:" or "Dictated by:" fields.
