Dear Francisco:

Here are copies of the criminal records relating to my case, which I have marked up to note defects in the *semantics* employed by Officer Herz, as well as highlighting the *physical* interactions between us so the timeline is clear: he acknowledges that he grabbed *me* first.

Several questions arise from my interactions with police or other "authority figures" in what amount to highly indirect interrogations, which promoted my levels of stress over the days I was vacationing in Ithaca hotels. In some of these the persons involved had an approach where they were "pointless" - since to the best of my recall they never brought up any of the *actual* issues provoking their concern, e.g., "talking to myself aloud in public." These were conducted over the period of my vacation in downtown Ithaca from September 13 through the date of my arrest September 19, 2018:

- 1) An interaction with two authority figures in downtown Ithaca (on Cayuga Street near the Hotel Ithaca where I stayed first) whose credentials I cannot recall, who subjected me to a brief interrogation regarding peculiar behavior.
- 2) An interrogation conducted by a team of individuals at Max's restaurant in the Hotel Ithaca, who were presumably called in by waitstaff who were concerned that I was speaking dialog aloud (cf. John Steinbeck on writing dialog; I was already loopy but these interactions were not conducted with a spirit of friendly interaction, and resulted in no gain in terms of useful advice or recommendations to me.)
- 3) An interaction with two police officers of the Ithaca Police Department at the Hampton Hotel as I was smoking a cigarette outside while seated, in which I was subjected to a vacuous interrogation by an officer presenting a complaint (?) that "some people have issues with your behavior," providing, to the best of my recall, absolutely zero substantive information regarding the nature of the complaint (maybe based on concerns expressed by staff at the hotel, but that's unclear. Personally, I believe staff should feel free to express any concerns to me themselves, since I am a highly cooperative individual and generally compliant with social norms, and would be happy to tone down or discontinue any behavior they find annoying or disruptive).

The officer facing me is the person I characterized to Dr. Ehmke at Cayuga Medical Center as a "phony cop," not because I believed he was impersonating an officer, but because his bearing towards me seemed to indicate a lack of confidence in his interaction with me as a law enforcement professional: "wimpy."

Here follow the interactions with IPD officers on 9/19/18, over the course of which I do not believe I was clearly informed that I was an unwelcome presence at the Denny's restaurant located on Elmira Rd.:

- 4) I was intercepted by a police cruiser in the parking lot of Walmart as I was walking over there to purchase some cigarettes, with the intention of returning to Denny's to have some more food. I willingly cooperated with the two officers involved, returning to Denny's to pay immediately for the bill I

had failed to pay off before leaving. The video recordings of this conversation (assuming audio is also recorded on the new police gear) should provide evidence that I had intended to return to Denny's to continue eating, and that I cooperated with the officer who requested ID.

5) As I was walking back to Denny's, I encountered an IPD officer, to whom I offered a \$20 bill as payment for the bill to save some walking, since I was wearing 3" heels (as I typically do) and wanted to spare myself the additional walk. He asked me if I wanted to leave such a substantial tip, since the bill was only about \$13.50 or so, and I told him that was the case. Following that interaction, I returned to Walmart and purchased a package of cigarettes before returning to Denny's.

6) And finally, the catastrophic interaction with Officer Herz at Denny's following my *actual* descent into freaking out over imaginary risks, as the sole person I saw at the restaurant, seated at the back of the front section, departed as I entered - leaving me entirely alone, without service, or indeed any meaningful interaction at all?

This is tragic, because a statement such as "I would appreciate it if you would leave, because I'm upset by your behavior" from staff would have worked just fine to impel me to leave on my own accord: I was born and raised in Little Rock, Arkansas, and I was raised better than to go where I do not belong.

Thanks,
- AnneRose

Medical Records relevant to the police beat-down on 9/19/18 - Case #118-18251

1 message

Bonze Anne Rose Blayk <bonzesaunders@gmail.com>
 Reply-to: bonzesaunders@gmail.com

Wed, Feb 13, 2019 at 2:21 PM

Here are copies of the medical records relevant to my arrest on 9/19/18, which I have marked up to note defects in the presumptions and logic of the clinicians in the Behavioral Services Unit at Cayuga Medical Center; records from my hospitalization over December-February 2016 are available at <<http://badtriprecords.biz/bonzeblayk/testify/therapyness/cmc/>>, along with records relevant - sometimes only tangentially - to my history with mental health services, where I have laid out a timeline of events at <<http://badtriprecords.biz/bonzeblayk/testify/masterlist.html>>.

In the Treatment Over Objection from 2018, we can observe ample evidence of incompetence blended with implicit malice, just for example:

- 1) They entered an incorrect birthdate in the TOO; this matters! and
- 2) "Danger to self: likely to be assaulted"

Really? I've been subjected to some really annoying harassment, with two episodes amounting to menacing... but I was never subjected to an assault over the course of my *entire life* until 9/19/18.

"Likely"? Why? ==> "Who wouldn't?"

This is madness. Out trans and consistently wearing skirts (I hate wearing pants!) since 1/1/11, and all the while suffering a few hostile interactions, but no glaring offenses. Just what is the problem here?

And note, additionally, that there exists a logical thread between the irrational assertions made by Dr. Ehmke and a *legal* justification for Officer Herz' brutal behavior on 9/19/18; if one accepts the assertions made in the affidavits filed in support of the Treatment Over Objection, what *reasonable* person would object to his ready resort to violence over dialog?

<http://ypdcrime.com/penal.law/article35.htm>

NY Laws › Penal Law › Part 1 › Title C › Article 35

S 35.30 Justification; use of physical force in making an arrest or in preventing an escape.

1. A police officer or a peace officer, in the course of effecting or attempting to effect an arrest, or of preventing or attempting to prevent the escape from custody, of a person whom he or she reasonably believes to have committed an offense, may use physical force when and to the extent he or she reasonably believes such to be necessary to effect the arrest, or to prevent the escape from custody, or in self-defense or to defend a third person from what he or she reasonably believes to be the use or imminent use of physical force; except that deadly physical force may be used for such purposes only when he or she reasonably believes that: ...

Surveying and analyzing this crap gives me the hives: PTSD sucks. I feel terror as I contemplate the cruelty exhibited here, simply in the fact that the clinicians and many of the staff would not, or could

not, acknowledge my clear and repeated statements that not only was I in severe pain when I moved my shoulder, but I *could not* appear in court to argue against the TOO... since I was *simply incapable* of donning appropriate clothing, a problem with which I shall be forced to contend with to the end of my days: the torn tendons are inoperable, according to Dr. Donohue of Cayuga Medical Associates (their expert in surgery on shoulder injuries).

Thanks,
- AnneRose

PS: Amusing, or not? CMC failed to notify Molina Healthcare of my admission on 9/19, leading to the rejection of some \$20,000 they had billed for the essential medical support required following the beatdown - essential support which for some reason, Molina characterizes as a "mental health admission" in their communications to me?

Evidently they *are* going to be paid for the charges filed following my involuntary admission to the BSU under MHL 9.39 on 9/24 - despite my filing an objection to the quality of their "services" with Molina.

??? *Most peculiar indeed.*

Court Date Adjournment

1 message

Francisco <fpberry@gmail.com>

Thu, Feb 28, 2019 at 2:58 PM

To: Bonze Anne Rose Blayk <bonzesaunders@gmail.com>

Hi Anne Rose, hope you are doing well. Thank you for all the information you sent me in 2/13. I have not yet received discovery from the District Attorney's office. So, I requested that the court appearance tomorrow be postponed until March 20th in order to avoid waisting our time sitting in Court. The court approved the request, so we do not have to appear until Wednesday, March 20, 2019 at 9:30 am. I will keep you appraised of any any news in the meantime. Please let me know you got this message. Yours, Francisco

Law Office of Francisco Berry P.C.

Thanks, Francisco! I hope you've been doing well yourself...

I've recovered from the Major Depression and movement disorder induced by having Invega Sustenna forced on me; it was three months of Hell, but I'm feeling 'with it' again, and once again truly competent to drive?

I've been working up more materials for the case, including a year-long timeline of withdrawals on my CFCU account, highlighting expenses relevant to my "Electrolysis Vacation" exercise downtown from 9/13/18 - 9/19/18; I was prepping for a trip to DFW to get beard removal done in October, which requires having a 5-day growth of my facial hair - this is a part of a larger project in which I am working towards getting gigs as a "Spiritual Consultant"?

... which is - LOL - an approach to advertising myself as a 'philosophe' without dragging myself through the doctorate in Philosophy I wanted to pursue back in college, up until my friends (all engineers) persuaded me to stick with Economics, because

- "Get real! There are no jobs in philosophy!"

True, that; sad, but true.

Thanks!
- AnneRose

In order to address the concerns of the City Prosecutor that I may be dangerous due to mental illness, I would be fine with undergoing 730 examinations for fitness to stand trial, which naturally serve as a backdrop for assessing criminal intent or other irresponsible behavior. Otherwise, I am taking care of my emotional distress due to PTSD in a responsible manner, and sadly, find the services available at TCMH unsuited to my medical needs, in part because they exclude clients from working with outside therapists; to allay the Prosecutor's concerns, I am providing here documentation on my medical history and engagement with responsible medical practitioners.

Please note that I have no history of any criminal charges against me from February 1997 up until September 19 2018, have a clean driving record, and have been active in the Ithaca community since 2011 as an openly transgendered person. I have been seeking employment of some type within the music industry, particularly in audio recording and A/V work; for examples see my YouTube Channel at <<https://www.youtube.com/user/bonzeblayk>>, where I have published videos of my own public performances along with many other live performances by some of Ithaca's legendary musical performers, most of them produced using sophisticated audio techniques.

Documents have long titles in order to provide a brief summary of relevant details.

The first two documents in this list underscore the fact that an insanity acquittal in New York is a finding of innocence, and in 2012 that I completed my obligation - deriving from my acquittal for the offense of arson on February 6 1997 - to submit to supervision by the NYS Commissioner of Mental Health. This finding establishes that I am responsible for my own health and welfare, and that I will be held legally responsible if I am accused of criminal behavior, a standard which I accept.

00 - 1997-02-06 BARB - BAD TRIP RECORDS -- AnneRose Blayk - 'A M'Naghten Case Study' (and PEN 40.15) - An successful insanity plea in NYS is a finding of NO 'mens rea' - INNOCENT not 'Guilty But Mentally Ill'.pdf

01 - 2012-07-24 BARB - Bonze Anne Rose Blayk - CPL 330-20 Discharge Order - Judge Rowley.pdf

The next five documents highlight my success in obtaining competent medical care appropriate to my condition, including

- Legally qualifying to change the 'gender marker' to 'F' on all my ID following evaluations by my PCP of over 35 years and an expert clinical psychologist,
- Qualifying for hormonal treatment appropriate to the ICD-10 diagnosis 'F64.0 Transsexualism' following a professional assessment by an expert endocrinologist, and
- Qualifying for legal medicinal marijuana under NYS law to treat PTSD following an assessment by an expert psychiatrist.

06 - 2018-09-03 BARB - Brian Babiak MD - Psychiatrist - Gmail - Only Medical Marijuana recommended for 'PTSD etc' - Screenshot_20181029-134710.png

The last document in the list here is a report from 2011 by Dr. Lippert of Tompkins County Mental Health, in which I believe I demonstrate both the existence of bias and the persistence of errors found in earlier reports by providing marginal notes and illustrative highlighting supported by online documentation linked at BADTRIPRECORDS.BIZ and elsewhere.

07 - 2011-09-14 - EVIDENCE OF BIAS at TCMH - Gerard Lippert MD - Pages 22-27 from 2012-07-24 Filings Confidential-2 - TCMH PROGRESS NOTES insanity featuring -presumption of maliciousness - despite PEN 40.15 Insanity Acquittal.pdf

The purpose of my "ELECTROLYSIS VACATION PREP" in hotels down in Ithaca starting on September 13 2018 was to prepare for a trip - scheduled around October 11 2018 - to Electrolysis 3K's Dallas/Fort Worth location by staging an exercise with the same kind of computer gear, luggage, hotel experiences, and 5-day beard growth that would be required to journey there and have expert male electrolysis performed.

2018-06-30 BARB - Electrolysis 3K Gmail - AnneRose Blayk - More photos of 4-day beard growth part 2 - Expert medical treatment for male facial hair.pdf

The remainder of the documents in this list consists of reports from my health care history, where I have consistently co-operated with appropriate and caring medical treatment, except perhaps during my admission to Cayuga Medical Center on September 19 2018 immediately following the police assault and the very early period of my hospitalization; during this time my behavior was definitely influenced by the administration of Ketamine as an anaesthetic drug during the surgery on my shoulder by Dr. Blake on September 19 2018.

Regarding my ordinary public presentation and business program

1 message

barmayden AnneRose Blayk <bonzesaunders@gmail.com>
Reply-to: bonzesaunders@gmail.com
To: Francisco Berry <fpberry@gmail.com>

Thu, Apr 4, 2019 at 11:03 AM

Hi Francisco! I hope you're doing well!

I felt that both you and the City Prosecutor should be aware, as you review the bodycam recordings, that my public presentation at that time was not *at all* abnormal for me; I probably haven't noted that I'm a (very) minor celebrity from events dating 40 years back, as a co-founder of the legendary hardcore-punk band, the Angry Samoans?

Whatever, I transitioned socially back on January 1, 2011, *always* wear skirts, and I have a high public profile as a *out* trans woman; here's a link to an online 48-image slideshow of about 1 minute duration to underscore the point that I have been *way out* there as a personality for about 8 years and have no particular problems with my reception in public; the more provocative imagery has been shared on Facebook rather than publicly, because I'm much more modest in public!

<http://badtriprecords.biz/bonzeblayk/barmayden/out/>

As far as my business program is concerned, I've been working on developing analyses of cultural phenomena and offering consulting as a *Spiritual Consultant* through databeast Inc./BAD TRIP RECORDS - which I founded back in 1994 in order to contract with Cornell for a license to COMET - and relying on Ms. Lenora Quvus, now President and Treasurer of databeast, Inc., to arrange appropriate venues for presentations, conferences, etc., where it might be possible for us to "pull in a few dimes" so *we don't starve to death!*

[2018-08-24 - barmayden AnneRose Blayk - Spiritual Consultant - INTERACTIVE BACKGROUNDING TOPICS v2.0.pdf]

Attached find a record of my past year's expenses; I've been devoting what resources I have left to making this project work, and - can you believe it! - *facial hair is a gross impediment to acceptance as a professional trans woman*, and Electrolysis 3000 is the *only* service in the United States that provides swift, painless, reliable eradication of male facial hair: they're *legendary*.

So? Any backlash from "concerned parties" about how I spend my money, such as IS THIS A MANIC SPREE are not only unwelcome, they should be viewed as evidence of gross prejudice against *trans women*.

Gmail sends email on a double-tap on the Return key, and it sucks!

So, here's the expense record, which also covers the period leading up to the Officer Herz' assault on September 19, 2018.

[2018-01-01 - 2018-10-16 - CFCU - Bonze Anne Rose Blayk - CFCU Community Credit Union.pdf]

And also an extract from Deirdre McCloskey's memoir *Crossing*, which might help you understand better "how it is" when a psychiatrist decides you're nuts... because your sister, a Clinical Psychologist, decides to accuse you of "mania."

And the nature of "insight" in psychiatry: some are good, some are bad, and *some are evil*.

... if you happen to be an esteemed Professor of Economic History and Rhetoric, it's a lot easier going than if you're "merely the developer of COMET, dataComet, and dataComet-Secure" - "Doctor" Ehmke thinks this is a *joke!*

</headdesk>

Thanks, sincerely,
Bonze Anne Rose Blayk
