

PAUL Monachino

Health Care Proxy

Restrictions, no visitation unreasonable

Perjuring or mentally incompetent? Fri 4/25 other complaints re: Roberts
not ~~in fact~~ in fact meeting w/ patients / Wed 4/30 11:30 AM

→ (Dr Geigeli is ill (respiratory) back on Monday) noted further perjuries

Incident 7:30 AM "Gore History" as rights violation ("mental abuse")

Peggy Chaffee All night shift staff FEMALE

Mary Jaynes

Addiction expert

Expert: Gene Finelli, Synapse U. (MAP posng)

RICHARD

WITNESS

Photographic evidence ESSENTIAL 2x5lb, 300 ft corridor

W Staff testimony? (P, E)

- allowed into women's "wing" - another "client issue" was distracting her! Doors ALWAYS OPEN even at night!

Incident 7:30 AM, ~~bedroom~~ bedroom unbearable? cold, no blankets,

Mr Smoky next door

W Dr Breman "There is no science in psychiatry"
witness to stress

W Mark Oros 357-5800

★ DSM: Dependence, Bipolar "severe depression"; / ADME question

HPPD: "What is HPPD?" Hallucinogen Post Perceptual Disorder — MePP link

Raubert Standards

- case law on orders of condition - "laundry list" not valid
case name? pregnant woman...? guy w/ firearms restriction...

4/10/03

MHLS 607-721-8410

Kevin
Wenig / Mosier

No DIALOG, ALL MONOLOG

"WE TALK, YOU LISTEN"

right to work - destruction of business, home, livelihood

care for child / family relationships ~~stated~~

pressure to take off-label meds w/ no diagnosis!

OMH

~~psychological battery~~ based on "failure to

~~accept begins personal history: "did you batter her?" —~~

~~STRESS KILLS brain cells~~

~~FREEDOM FROM STRESS~~ long train of errors without ANY corrections ~~THEY~~ ~~FOCUS ON BAD~~

EPC 4/4 transfer from CMC (x-rays of foot, antibiotics omitted Good before transfer) meningitis?

"Q15" 4/5 "hall incident" poor control over patients, no M/F "Do Not Enter" sign!

Th - "Treatment team" meeting - scheduled during night so Ketflex dose

~~would have been missed had I not recalled 3x 1pm dose~~

dose: Ketflex 9/1/9 pm + motrin for rib

meeting 3/ ? "urgent forms to one sign" 3/24, NYSDL lifted! promised FAX never sent

"TT" Treatment Team(?) 4/10 another document, pressure to sign, no copy filled with factual errors

"failure to acknowledge trauma" over rape? NUTS! provided
MICA BS.

blood pressure obsession "too psychotic to realize"

"psycho-ghouls"
trauma miners

~~Internet security~~ "business" running on web w/ no work!!!

"no medical proxy" despite ATR form

ASU - macabre paintings, incredibly bad construction, noise (fans, lights),
failure to control patients appropriately - 70% "BE RESPONSIBLE DAMMIT!"

~~asymmetrical construction - INTENTIONAL!~~ Warped frames
of reference weaken context with reality - a VIOLENT interior/
exterior space "upgrades" that break knuckles.

4/17 6:30 AM

Discussion w/ Linda Burns, night shift, at facility when opened in 1974 — ^{long-term employee} VERY enlightening! Also worked at Willard

Professional staff has changed radically, having freezes since 1986 usually prevented new hires until recently; new staff lack work ethic, don't have needed training or life experience to understand and help meet the needs of ~~old~~ patients... unwilling to work weekends etc. to meet 24x7 needs. Professional staff all new ex. ~~is~~ Pormelli (whom she likes).

Clients have increasingly become mixed w/ criminal elements, parole violators (drug abuse), making security problematic. (B)

Doctors no longer respect staff opinions

Building "renovations" to meet new legal standards are ~~the~~ a major cause of the unsightly mess ... new sprinklers, windows covered over w/ Sheetrock, double rooms converted to singles w/ inadequate soundproofing, knuckle-eating doors, etc. Men's/Women's sections were truly separate.

Meghan 4/25 11:30 AM : lecture re: accepting meds.

Supposedly I am currently "unstable" grandiose & narcissistic,

"I just want to give you help - if you're not willing to accept help, you'll be here for years" Δ

"You will lose your business"

claims she's "talked" with me, pre-hearing "meeting", meeting w/ my mom, (!) / 5/2 11:40AM re: power of attorney, advised again "smart things to do";

 noted again historical pattern of error, GAF 55! etc.

4/29 Dr Roberts: re Danny Scott: At 9:00 AM I filed a formal complaint against Danny Scott, who had threatened ^{"I'm going to} ~~to~~ "bust your head open with a knife!" Filed w/ Naomi

Dr. Roberts got back to me at the nurse's station to discuss this problem; after getting a little more info on Danny's patterns of destructive behavior, she said she would recommend that I be transferred to another unit. I stated that I preferred to stay, that I was comfortable w/ the other patient's behavior patterns, and asked why I should move when Danny's behavior posed the problematic risks..

TP She asked whether I had any other questions, and I said no.
She ^{asked whether I had ever used} volunteered that she was adding Lithium & Depakote to the list of medications I could try. Nurse: Lith 300mg BID Dyp 250BID

5/1 Dr. Roberts (11:15AM?) called me over from N, asked about Danny Scott & whether he had persisted in threats after saying "Happy Birthday": Asked whether I had questions re: meds, I said that I reject her services as a physician; that her statements on the stand demonstrated to me that she was either ~~out of touch~~ out-of-touch factually or was lying.

5/1 Dr Parvez 2:00PM As Dr Parvez was passing through, I requested that he check on results of my blood lipid profile — he went over the results, indicated that my cholesterol & triglycerides ⁽¹⁶¹⁾ levels were normal, I was neg. for Hep A,B,C, and recommended Hep B inoculations as preventive measure.
